Towards new avenues in EU-US ICT collaboration:

5G, Big Data, Internet of Things and Cyber Physical Systems for smart cities, smart transport and smart energy

EU-US collaboration on 5G funding opportunities in Horizon 2020 – *Webinar*

ICT Policy, Research and Innovation for a Smart Society

www.picasso-project.eu

What is PICASSO?

> European Commission funded **collaborative project** (January 2016 - June 2018)

> Mission: Enhance **EU-US ICT research and innovation collaboration** responsive to the societal challenges and industry needs, supported by harmonious policies, to enable economic growth in both the EU and US

> Focus: 4 Expert Groups on 5G, Big Data, Internet of Things / Cyber Physical Systems and Policy Dialogue with approx. 30 members - *Unique feature of PICASSO: synergy between ICT policies and ICT technologies*

> Project target groups: ICT RDI Stakeholders and networks | ICT companies / industry | Policy Makers

What's in it for you? PICASSO Benefits and Opportunities
