ICT Policy, Research and Innovation for a Smart Society

Spectrum issues affecting EU/US ICT development collaboration
Webinar Objectives

> With the webinar on **" Spectrum issue affecting EU/US ICT development collaboration"**, PICASSO will bring forward policy recommendations designed to improve EU/US ICT-orientated collaborations - specifically in the technological domains associated with 5G networks, Big Data, and IoT/CPS.

> The focus is on connectivity and the interactions among EU and US spectrum policy, technology development and research that challenge existing spectrum management rules (esp. on licensing and access) and create a need for research to establish the possibilities and the impossibilities that determine the balance among different spectrum access control policies.

> The participatory webinar will discuss the briefing paper that will be forwarded to registered participants latest one week before the webinar. The draft outline document is available at: http://www.picasso-project.eu/projectevents/picasso-webinar-on-spectrum-issues-affecting-euus-ict-development-collaboration/
